3. Communications  
b) IWWC Application Status.  
c) Text dated April 14 from Katherine Amedy to Bekah Little regarding withdrawal of Inland Wetlands Application #2020-03.

4. Old Business  
a) Inland Wetlands Application #2020-03, Katherine Amedy, Applicant and Eugene Theroux, Owner for property located at 81 Benjamin Road; Build a retaining wall with shed/garage and deck.

Chairman Moulson stated that the Applicant has withdrawn Application #2020-03.

b) Inland Wetlands Application #2020-04, Erik Freidenfelds, Owner/Applicant for property located at 103 Lewis Road; Construction of a single-family residence and 6700 foot duck pond.

Norman Thiebeault, Killingly Engineering Associates, LLC stated that he is representing Erik Freidenfelds this evening and will be happy to answer any questions.

Chairman Mouslon described the area as a long drive way, at the end is a small cemetery, not far from that is the house site. The proposed pond location is adjacent to the wetlands.

Norman Thiebeault noted that septic system approval was received on April 5th from Uncas Health District.

D. Fox asked if the dwelling, well and septic are out of the 100' review.  
N. Thiebeault answered no, there is a portion of the house that is approximately 20' in the 100' review area.  
D. Fox asked how the pond will be kept full due to gravelly soil.  
N. Thiebeault answered excavation will be adjacent to the wetlands and below the water table.  
D. Fox asked Chairman Moulson if there are any special measures this Commission has to take to approve adding wetland adjacent to a wetland.  
Chairman Moulson answered that he does not see a problem with it or know of anything that says we have to do something special.  
D. Fox asked what will be done with the material dug out when creating the pond.  
N. Thiebeault answered that there is a good sized yard where the spoils could be spread and utilized.  
D. Fox asked for the amount in cubic yards.  
N. Thiebeault answered approximately 650 yards and noted that this property consists of 22 acres, or if they wanted to remove it from the site, they could do that as well.  
D. Fox asked what erosion control methods would be taken during excavation.  
N. Thiebeault answered a silt fence along a portion of the driveway and perimeter of the disturbance, which is approximately 0.7 acres.

A motion was made by P. Andruskiewicz and seconded by C. Bartnicki to approve Application #2020-04 with a $1,000 bond.
Discussion:
D. Fox asked to amend the agenda and motion by including the construction of a duck pond in the application's description.

A motion was made by D. Fox and seconded by C. Bartnicki to amend the present motion to include a 6700 foot duck pond as part of the original motion. All in favor. Motion carries.

A motion was made by Chairman Moulson and seconded by P. Andruskiewicz to add a second amendment to the original motion that silt fencing and other erosion controls must be inspected by the Wetlands Enforcement Officer prior to starting work. All in favor. Motion carries.

No further discussion

A motion was made by P. Andruskiewicz and seconded by C. Bartnicki to approve Application #2020-04; the construction of a 6700 foot duck pond with a $1,000 bond and that silt fencing and other erosion controls must be inspected by the Wetlands Enforcement Officer prior to starting work. All in favor. Motion carries.
