Jason,

Regardless of how members of the Wetlands Commission feel about the proposed project, a definite detrimental impact to Avery Pond must be identified by expert testimony. The opportunity for this will be at the Public Hearing on 12/21.

Blue camp on Avery pond is a horrible idea. People come to live in preston because it's a quiet town, this camp ground is just going to bring problems and no economic benefit. It's gonna cost me more to live here. The pond is not big enough for a campground. I walk around Avery pond in the summer to fish and always bring a garbage bag due to casino people going there fishing for whatever they catch to fill a 5 gallon bucket always wearing rubber gloves and leaving there rubber gloves and whatever trash left behind this is disgusting. I can't imagine what will happen to the pond, wet lands and wild life if this goes through.
