The purpose of this meeting is to provide the community with an opportunity to learn about the proposed project and allow an open discussion of any views and comments concerning the proposed improvements. A Q&A session will immediately follow the presentation.

The purpose of these projects is to provide new structures that will address the deficiencies of the existing ones while allowing the original superstructure and culvert to remain in place, extending the service life of crossing Parks Road and Cooktown Road.

The right-of-way impacts consist of permanent slope easements and a right-to-grade driveways to accommodate the raise in the roadway profile as well as temporary construction easements for the contractor to complete the work.
