Construction at the Town Hall has been completed!

We are pleased to announce that the reconstruction of our parking lot, driveway, and Town Hall entrance is finished. You may once again use the Town Hall front entrance, which is now ADA compliant.

Special thanks to our Department of Public Works Manager, Jarred Harris, for spearheading this huge construction endeavor; and thanks to his team for their extra efforts as well.

No local tax money was used for this project, as per the ARPA Ordinance that was approved at a previous Town Meeting.
