How to sign up for notifications from the Town of Preston

Residents of the Town of Preston have two options to receive automatic notifications. Please click on the heading links below for more information and instructions to register.

1. **Emergency Notifications for Preston Residents**

    ➤ Preston residents may voluntarily sign up on our Town website to receive emergency notifications via Everbridge. Everbridge is a critical event management platform used for emergency and safety notifications.

    ➤ This platform allows us to quickly notify individuals about emergencies and other events happening now, or warnings of impending events, such as severe weather, flooding.

    ➤ You select the preferred method to receive these notifications via text, phone or email.

    ➤ Note: You will be prompted to enter a Preston address. If entering an address outside of this community, you will not be permitted to join this notification system.

2. **Meeting and Calendar Notifications**

    ➤ When agendas, minutes and calendar events are posted to our website, you may request to receive notifications via email or text.

    ➤ This feature is available to Preston residents and the public. Sign up on our website, under the Agendas and Minutes Center.

    ➤ You have the option of selecting the categories of your choice for our various boards, commissions, agencies or town meetings/referendums, calendar postings; or select all.

    ➤ You may edit your selections at any time.
